	7,Check whether anything trapped in the wheels.
Vehicle move slowly	1,Check whether the battery be fully charged.
	2,Check whether anything trapped in the wheels.
	3,Check whether the vehicle is over loaded.
Vehicle cannot be charged	1,Check whether the charger or battery is damaged.
	2,Check whether the charger and the battery is well connected.
	3,The charger or battery if there is a loose connection.

WARNING

- 1,This note is to use illustrations to illustrate the operation of the product and product structure, there are a few differences, in kind prevail.
- 2,In order to improve the quality of the products, under the condition of without telling, we may make changes to the product part of the structure with the appearance, please understanding

CHILDREN'S ELECTRIC CAR INSTRUCTION

Please read this instruction carefully before use.

- Suitable age 37-96months.
- This product should be assembled by adult.
- This instruction contains important safety information content,please keep it as a reference.
- Executive standard: GB6675-2003.GB19865-2005.

About the products

Thank you for choosing our children electric car. We always keep pursuing being outstanding and designing comfortable and safe ride on car for children, and give your children a wonderful childhood.

Please read this instruction carefully before use, it will tell you the right way of assembling and operating. To avoid incorrect operations damaging the product or injuring your baby, please keep this instruction.

Specifications

Battery:		12V7Ax1/6V7Ax2	
Main material:		PP	
Suitable age:	37-96months	Maximum weight:	30kg
G.W:	23kg	N.W:	19kg
Car Size:	121x 75x57.5cm	Package Size:	121x 61x39cm
Speed:	3-5km/h		
Operation time:	1-2hours after charging about 8-12hours		
Charge:	Input AC220V; Output DC12V1000mA		
Fuse:	Resettable Fuse
